Music & Lyrics by Mark Lewandowski

Electronic Rock ♩ = 100

(Verse 1)

My satellite's in array
She'll guide me on
When I leave today

No more imprisoning
Behind the bars
The doors are opening

(Pre Chorus 1)

We climb the sky
Ascend beneath the sun
I put out my hand
Connect to me as one

We keep our time
There never is enough
Don't say goodbye
This night we will become

(Chorus 1)

Jump on up through the atmosphere
Ride the wave of air that's clear
It'll be alright
Forever under the stars

Jump on up through the atmosphere
Ride the wave of air that's clear
It'll be tonight
Together under the stars

(Verse 2)

Another night permeates
My sleep is gone
Stare at the ceiling late

I see the younger me
Now where'd he go?
Reach for that memory

(Pre Chorus 2)

(Chorus 2)

(Instrumental Bridge)
Na na na!

(Breakdown)

(Chorus 3)
